IL Politecnico di Milano
Italy

About POLIMI
Link (https://www.polimi.it/en/the-politecnico/about-polimi/)

Politecnico di Milano (POLIMI) is a scientific-technological university which trains engineers, architects and industrial designers. The University has always focused on the quality and innovation of its teaching and research, developing a fruitful relationship with business and productive world by means of experimental research and technological transfer.

POLIMI takes part in several research and training projects collaborating with the most qualified European universities. Its contribution is increasingly being extended to other countries: from North America to Southeast Asia to Eastern Europe. Today the drive to internationalization sees Politecnico di Milano take part in the European and world network of leading technical universities and offers several exchange and double-degree programmes beside many programmes which are entirely taught in English.

POLIMI has over 5,600 foreign students enrolled in their Master of Science programs. They have 32 Master's degree programs that are being taught in English.

2022 QS World University Rankings: 142th (0verall), 1st (Italy), =20th (Engineering and Technology), 13th (Civil Engineering), 15th (Mechanical Engineering), =44th (Computer Science and Information Systems), and =22nd (Electrical & Electronic Engineering).

About School of Engineering at POLIMI
Link (https://www.polimi.it/en/il-politecnico/governance/strutture/schools)

POLIMI is divided into four schools, each of which offers study programs at different level.

Students in our dual-degree program may choose from the Master of Science (Laurea Magistrale) degree programs offered by the Schools of Engineering.
