

DEVELOPMENT & PARTNERSHIP

HKUST Receives HK\$100 Million from Chow Tai Fook Charity Foundation

In appreciation of the Foundation's support, the University has named its Robotics Institute with presence in Hong Kong and future Guangzhou campus after Dr. CHENG Kar-Shun.

HKUST Signs MoU with HKSTP to Spark I&T Growth Opportunities in GBA

The collaboration paves the way for the establishment of the Hong Kong Science Park and Guangzhou Nansha Co-incubation Base in Nansha, Guangzhou.

HKUST Partners with Facebook to Empower Next-Generation Digital Talents

HKUST has joined the "Level Up Digital Talent Program" launched by Facebook as the lead partner to nurture future digital talents.

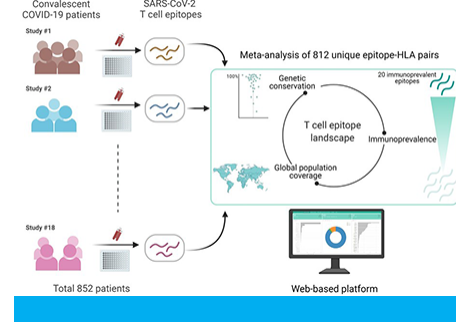

Universities can be 'Living Labs' for Sustainability

President Prof. Wei SHYY contributed an article to the World Economic Forum where he discusses the role of universities in creating a sustainable future.

RESEARCH

HKUST & Beijing Tiantan Hospital Researchers Discover a New Cause for Cerebral Cavernous Malformation

HKUST's Meta-Analysis Shows SARS-CoV-2 Variants Unlikely to Affect T Cell Responses

APPOINTMENT

HKUST Announces Appointment of Prof. Tim CHENG as Vice-President for Research and Development

The appointment will start from April 1, 2022.

Prof. MOW Wai-Ho Appointed Associate Dean of Engineering (Undergraduate Studies)

He began his new role on September 1, 2021.

FACULTY ACHIEVEMENTS

Prof. ZHAO Jidong Honored with Changjiang Chair Professorship and Natural Science Award

Prof. ZHANG Limin and Prof. LIU Ming Won 2020 Guangdong Province Science and Technology Awards

Prof. Man WONG Awarded 2021 Slottow-Owaki Prize

Prof. Rhea LIEM Received University Grants Committee Teaching Award as an Early Career Faculty Member

Eminent Engineering Professors Honored in HKUST Faculty Recognition Ceremony

Prof. YANG Qiang Named a Fellow of Canadian Academy of Engineering

COMMUNITY ENGAGEMENT

High School Students Built HKUST's Patented Hi-NW Light Disinfection Devices to Benefit the Community

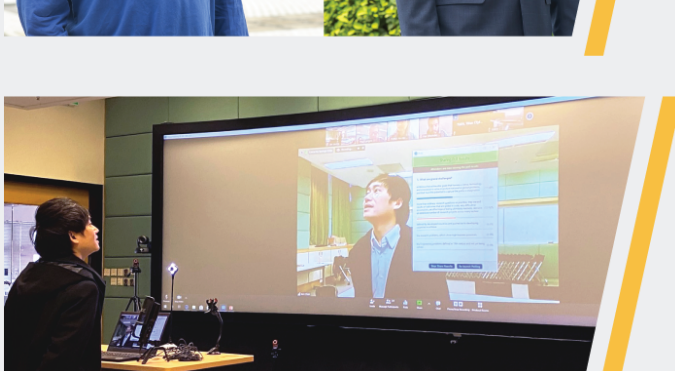

Students utilized Prof. YEUNG King Lun's technology to assist the community to fight COVID-19, in addition to developing their creativity and gaining hands-on learning experience.

TEACHING & LEARNING

Prof. Andrew HORNER and Prof. Terence WONG Commended in HKUST Common Core Teaching Excellence Award 2020

They received the Honorary Mentions of the award for their courses on Creative Sound Design and Introduction to Biomedical Engineering respectively.

The Mixed Reality Future of Teaching and Learning

The pandemic has accelerated the introduction of engineering design in the virtual world and online education development at the School, opening up innovative pedagogies to enhance students' education experience.

ENTREPRENEURSHIP

HKUST-Sino One Million Dollar Entrepreneurship Competition Spotlights Creative Solutions to Societal Issues

One winning team created a real-time, non-invasive, and easily accessible technology to monitor athletes' stress and muscle fatigue level to keep them from overtraining.

STUDENT ACHIEVEMENTS

Bioengineering PhD High Flyer Won Prestigious Butterfield Croucher Studentship

Robotics Team Named Champion in HK Regional of MATE International ROV Competition for 10 Years

Adversity is Opportunity

Final Year Projects Received Accolades at ASM Technology Award 2021

Smart Temperature Screening Solution Won First Prize in Innovation & Entrepreneurship Contest

Civil Engineering PhD Graduate Awarded for Advanced Water Treatment Research

WOMEN IN ENGINEERING

Should We Harness AI or Fear It?

A renowned expert in the field of ethical use of AI, Prof. Pascale FUNG sheds light on the technology's many benefits and risks.

ALUMNI CONNECTIONS

"Uncertainty Is What Makes Life So Interesting!"

Mechanical engineering alumnus Ne Myo HAN has set off for his PhD journey at MIT this Fall, with the support of a Croucher Scholarship. Learn how he made this dream come true.
