## UG Course Syllabus

Creative Sound and Video Design

COMP1943

3 credits

no pre-/co-requisites

**Name:** Andrew HORNER

**Email:** horner@cse.ust.hk

### Course Description

This experiential project course will provide hands-on experiences in creating music videos and movie/game trailers by creatively remixing music, recutting video, and applying effects. It will provide a creative outlet where students can apply their problem-solving skills in a deep and engaging way to create music remixes, mashups, character videos, and reimagined video stories. It will also give students a chance to work with emerging video technologies. Whether students have music and video editing background or not, this course will provide them a chance to create like a sound designer, video editor, and director. For each of their music video creations, students will also create a behind-the-scenes commentary video that describes what they did and how they did it. They will share their creations and commentaries in class, and learn from and be inspired by one another.

### Assessments:

[List specific assessed tasks, exams, quizzes, their weightage]

Assessment Task	Contribution to Overall Course grade (%)
3 Assignments	45%
Final Project	45%
Participation marks (Peer & research ratings)	10%

### Required Texts and Materials

none

### [Optional] Additional Resources

none
