UG Course Syllabus

Electronic and Information Technology [Spring 2024/25]

ELEC1010

3 credits

Exclusion(s): Any ELEC courses of 2000-level or above

Name: Prof Ross MURCH

Email: eermurch@ust.hk

Course Description

This general-education course introduces the basics of electronic and information technology and their applications to daily-life consumer electronics and communication devices. Contents include the representation of signals in the time and frequency domains; digitization of information; coding for data compression and error protection; transmission of signals; cellular mobile phones and wireless communications; and the Internet. It is expected that through studying these technologies and how they address the problems encountered in the information technology area, students will also grasp the skills in solving problems with engineering approach and spirit and appreciate how these technologies impact the society.

Assessments:

| Assessment Task | Contribution to Overall Course grade (%) |
|---------------------|--|
| Homework | 10% |
| Mid-Term | 30% |
| Final examination | 50% |
| Class Participation | 10% |

Required Texts and Materials

No textbook. Lecture notes and Tutorial notes will be provided.
