

# Iacocca Global Village 2024

**Expand your global network. Stretch and strengthen your leadership potential. Enter a diverse world of cultures that you will be part of forever.**

In this time of unprecedented global challenges and rapidly changing environments, we need leaders who can work and collaborate across boundaries and barriers of all kinds; who can excel in a complex and evolving global context and build trusted relationships across diverse sectors, disciplines, and cultures.

The Iacocca Global Village experience is uniquely designed to develop future leaders, bringing together young professionals, entrepreneurs, and advanced university students from every continent to live and work in an intensive and diverse learning community. While in the Village, you will work in cross-cultural teams on real leadership challenges with organizations across the globe. You will develop a personal leadership vision and plan, and build a network of global colleagues, mentors, and friends. Together, you will study and discuss what is needed for leadership today and for the future.

## THE GLOBAL VILLAGE EXPERIENCE

**June - July 2024:** Your leadership journey begins with a flexible virtual experience designed to fit around your professional or learning obligations. You will join an on-line community of fellow villagers, mentors, faculty, and alumni, exploring common challenges and aspirations while engaging in cultural exchange and learning with leaders from all continents and fields. During the virtual sessions you will also begin work on your leadership plan and create goals that will guide your in-person residency.

**July 10 - August 7, 2024:** The in-residence, full-time program begins at Lehigh University in July, where you will live and work with fellow villagers as a community of leaders. You will engage in business consulting projects, study innovation and entrepreneurship, and formalize your leadership development plan, while building your global network. The intensive program schedule includes participation in workshops, design challenges, community service initiatives, meetings and networking events with community leaders, faculty, global professionals, entrepreneurs and mentors who will coach you toward your goals. The program also includes site visits, events and trips to New York City and Washington D.C. (Trip destinations subject to travel and safety restrictions.)

Upon completion of the Iacocca Global Village program, you will join an incredible network of 2,550+ alumni from more than 140 countries!

Are you ready to take the next step in your leadership journey? Learn more and apply: [go.lehigh.edu/gv24](https://go.lehigh.edu/gv24)
